

Where can i verify receiving capabilities of a Belgian customer?

Abstract

Lots of potential senders want to be able to visualize who can receive what. This is why the government has built a web tool allowing to lookup a company in the belgian companies registry, see what kind of documents it is able to receive electronically, and which format(s) of each such type of document. This FAQ explains how somebody may consult this registry. In short, just go to <https://digital.belgium.be/e-invoicing/PeppolSearch.html>

Starting page: the home page of Mercurius <https://digital.belgium.be/e-invoicing>

Go to the PEPPOL.be website:

In the window Belgian participants you are able to see the most recent companies who registered one or more formats ready to receive. Select "all participants" to start searching for specific companies.

Welcome to the Belgian PEPPOL authority website. This site helps you:

- To access PEPPOL information in the Belgian domain: rollout status, key information, domains of application, other relevant sites, ...
- To look after information about PEPPOL receivers in Belgium
- To look after information about PEPPOL access points active in Belgium

Belgian participant	Registration date
FLOWSTOKE	05-12-2017
0676.939.145	
DAPHAS	05-12-2017
0429.999.515	
FELIFEN	05-12-2017
0675.821.368	
VANHEEDE ENVIRONMENTAL LOGISTICS	05-12-2017
0449.217.094	
L&S VASTGOED	05-12-2017
0894.310.504	
All receivers >>	

Latest Belgian enterprises registered as PEPPOL receivers

Access providers	Amount of registered receivers
Codabox	1016
Octopus	446
Dynatos	325
Babelway	245
Ivor	18

Main reference on PEPPOL. Includes a Belgian PEPPOL adoption page .

Type the name of the enterprise in the search field below, to filter the results

Please consult the [Crossroad Bank of Enterprises](#) first if you are not certain about the name.

Clicking on the number redirects you to the page of the company in the CBE.

Clicking on the denomination redirects you to the list of document types (Order, Invoice, MLR, ...) that this participant accepts.

Search 1		
2 Enterprise number	3 Denomination ▲	4 Supported document types
0544.881.761	0404	CreditNote; Invoice
0443.807.959	0443807959	CreditNote; MLR; Invoice
0458.085.765	0458085765	CreditNote; MLR; Invoice
0461.521.347	1T4U	CreditNote; Invoice
0472.531.639	23 seconds	CreditNote; Invoice
0568.859.765	26 Fields	CreditNote; Invoice
0557.978.741	2Advise	CreditNote; MLR; Invoice
0677.726.726	2B-Nephrology	CreditNote; Invoice
0650.717.075	2Commit	CreditNote; Invoice
0806.066.040	2IT	CreditNote; Invoice

You arrive on a page when you are able to:

1. Search for a specific company based on the name (or part of the name) or enterprise number.
2. Go to KBO site to get more details on the company concerned. Clicking on column header sorts the list by company number.
3. Clicking on column header of denomination, sorts the list on name.
4. Supported document types indicate which kind of documents the company can process. You can see detailed formats when hovering the mouse over the document type concerned.

example on formats:

Enterprise number	Denomination ▲	Supported document types
0643.634.986	Eigen Vermogen Informatie Vlaanderen	CreditNote; Invoice
0367.302.178	Federale Overheidsdienst Informatie- en Communicatietechnologie	CreditNote; Invoice
0421.408.778	Internationale Vredesinformatie Dienst - International Peace Information Service	CreditNote; ML

Invoice v2.1 - Bis 5av2 - Bii 5v2
Invoice v2.1 - Bis 4av2 - Bii 4v2

>>Back

This means company 0367.302.178 accepts invoices based on PEPPOL BIS format 5v2 and 4v2 (both formats are accepted).

A detailed list of all formats and documents available all over Europe can be found at <https://www.galaxygw.com/peppol-documents/>

PEPPOL BIS specifications for all accepted documents are available at <https://peppol.eu/downloads/post-award/?rel=tab404>
